

941 Written Qubit Focus Copyright ©
2016 Christopher G Brown

941 written qubit functions by size of the data on a given chip's architecture meaning that if the chip is a data driven 22 nano meters then the qubit could be 22 or less written by size meters and the same for a chip written in a 7 nano meter depth of focus in optical measurements of qubits Copyright © 2016 Christopher G Brown
